Dear Mr. Rhoden:

Your excellent report is received and I am much impressed both with the quality and volume, as well as the manner in which you present your work. I wish other scholarship recipients could see it and do likewise.

I am pleased to know that you are working at the Academy in Rome on a Fulbright Fellowship. Your European experience, I feel sure, will prove most beneficial. I hope you will enter our competition for 1962.

Wishing you the best of luck, I am

Sincerely yours,

*Hebert Nichols*
