Dear Sirs:

Reference is made to your letter of June 7, 1978 wherein you enclosed a copy of a letter from the Dept. of Public Works registering an objection to our name on the Sculpture created by Mr. John Rhoden for the above project.

We originally accepted the fabrication of this Sculpture from Mr. John Rhoden to be built as close to the model, under his direction and supervision. After the Sculpture was completed and verbally approved by Mr. Rhoden with his and our names inscribed, it was arranged by the Dept. of Public Works that John T. Brady & Co., Inc., take over and give us a contract for them to purchase the Sculpture, including Stainless Steel Brackets, and the installation of the unit.

We understand that Mr. John Rhoden had asked the Dept. of Public Works on many occasions to inspect this Sculpture, but got no response to the requests.

Our contract with you dated June 30, 1970, specifically stated "Sculpture to be inspected before erection, at our plant, Bronx, N.Y., by anybody having jurisdiction."

Our invoice #25716 to you dated March 17, 1978 just before erection, also stated that you make inspection before installation. The writer spoke to Mr. Porcelli by phone and asked about this inspection; the answer was it would not be necessary.
