Dear Mr. Roden,

I spoke to you several months ago requesting slides of your work and biographical material on you for a research project I am completing on African American Artist and methods of inclusion into course curriculum. This is a reminder that I need your materials within the next week to enable me to bring this project to a close. I'd really appreciate your taking the time to pull together those materials and forward them at the address given below.

Please feel free to contact me regarding questions or clarification.

I look forward to receiving those materials which will be a valuable addition to this project.

Sincerely,

Ayokunle Odeleye
