

Sept. 7th, 1956

McCloskey & Co.

Att: Mr. Grundy

Dear Sir:

Many thanks for your reply and check which you sent promptly.

As the sculptor for the Screen on Stairway #9 of the Philadelphia Sheraton Hotel, I am giving you the dimensions of materials needed for the screen, on the suggestion of Mr. Dean.

I am also enclosing a rough sketch of the sizes as they will be applied to the steel suspension bars, showing the points of contact.

Would you kindly check the measurements of the actual bars and compare them with the points as giving in the sketch, as I am using very close dimensions for welding, so that all measurements should be critical.

Sincerely,
