Dear Mr. Rhoden

As a biographee in Who's Who In American Art, you are a natural candidate for membership in the NY/Artists Equity Association. We are honored to extend this invitation to you.

You'll be interested to know that our membership has doubled in the last three years, perhaps in recognition of our vigorous participation in matters vital to all artists. We have pursued -- and continue to press for -- legislative actions concerned with unfair taxes, donations, estates, copyrights, and other objectives. Our work to establish a year-round Visual Arts Center for exhibiting artists continues against all odds.

Because most of our objectives can be accomplished only with clout -- and clout requires numbers -- we'd like you to join our organization.

Your achievements in the art field make professional screening unnecessary. Your eligibility is automatic. Won't you sign the enclosed application - and mail today?

We look forward to the pleasure of your company.

Sincerely,

President
