Dear Mr. Dean,

Just a note to keep you advised of happenings in this department; I have had several consultations with Mr. Savit of Slocum and Fuller and also with a consultant from Century Lighting. At these meetings I have received valuable tips concerning both projects.

I would appreciate it very much if you would write a very strong letter to Lightolier as I have had absolutely no results ~~from my many calls and visits to them.~~ Also, I have had absolutely no cooperation from them in regard to the parts which would be extremely helpful to me in the chandelier construction ~~and which I feel I must have.~~ Although Lightolier has promised and promised, just giving the old B.E., they have done nothing for me and it has put me in such an embarrassing position that it makes me feel as though there is no further use in my trying to get results with them. ~~Since~~ I have been trying with them for two and a half months. I told them that if they would not be able to furnish me with the desired parts, would they please write me a letter so stating that those parts could not be supplied. But this letter they have not written. I am hoping that a good letter from you will ~~make them start to get things for me.~~ *will help.*
