Tokyo February 22, 1959.

Dear Richards,

A real lazy streak has hit me. Since I have not heard from you for more than a six week I don't seem to have much enthusiasm. For example I came to Tokyo yesterday and now 24 hours I have not really left the Hotel. Eating and repacking there. I've discovered that I gave some beautiful things for you. I hope that you like them. Tell me what kind of Karunono do you really like color, design etc? I've been stumped about pearls I got a lot and all kinds of stones what else do you want. This will be my last stop after Korea. I'll be in Korea Seoul for two weeks and return here for 2. So either place my dear please try to let me hear from you. That is what I want very much or I shall go mad. When I return from Seoul I shall try to call you - Perhaps my mail will reach me faster if you send it.
