List of works in Catalogue

1. Acrobatics

I tried to get the feeling of Acrobatics in abstract design.

2. Cariatide

The simplicity and the rhythmic forms of women carrying things.

I had seen the Basketball Players "The Harlem Globe Trotters" play in Egypt, Paris, and Italy and always this passing the ball to the rhythmic of "Sweet Georgia Brown" gave me this idea.

I tried to decompose the figure anatomically in design to give the feeling of power.

6. The Conversation about Nothing

The intensity of form in design

7. The Spirit of The Horse in Design

I used the design of the Greek, Etruscan and Chinese horse.

8. Salome!

9. The Spirit of Enlightenment ...

I tried to transform the natural form to greater masses in design and feeling. There were so much that I wanted to do with this figure, perhaps I failed but I feel that it could be a development of an idea in my search for form.

The idea for direct casting. Altho I was limited I wanted to see how much feeling that I could get into the idea.
