Dear Mr. Noyes,

Many thanks for your letter of July 31st acknowledging receipt of poor photographs.

Enclosed please find photograph which also has its limitations, not only because it is in black and white and actually to be seen at its best, the screen must be seen in color, but also because quite a bit of glass work to the screen after this picture was taken. *was added*

This seems to be the best photograph available at this particular time. However, if you think that it is called for, I shall go to Philadelphia myself and take some photographs in color. Please advise me accordingly.

When you are in New York and if you have a few moments, stop by my studio which is on Eighth Avenue with 24th as the cross street.

Many thanks again
John W. Rhoden
