Gentlemen:

In regard to your letter of June 1st, to McCloskey & Co, Philadelphia, Pa., concerning my bill for the sum of \$2,000, I regret to inform you that for some unforeseen reason this matter has not been set. This, however, may not be entirely the fault of McCloskey & Co., but since I have almost reached the full development of the model and have spent considerable personal funds without hearing from McCloskey & Co I am contacting you concerning it.

As an emergency measure, Mr. Bean, prior to his departure for Europe, suggested that I notify your office with instructions to receive any financial advances to take care of matters of this nature.

Your prompt consideration and assistance will be appreciated.

Sincerely,
