Dear Mr. Rhoden:

Please forgive my last minute change of plans for the visit to you and Mrs. Rhoden this last Sunday. I was able to go see your sculpture at the Afro-American Museum in Philadelphia, and I must say that these works are very fine. I especially liked the piece with #13 on the tag - you were still in the process of installing the exhibition so there were no titles listed.

I do look forward to visiting you and making firm our plans for the exhibition and publication here in Birmingham. As I told Mrs. Rhoden, the only questions to be resolved are when and how, that is the how of transportation, crating and security in transit.

I shall be in New York during July and shall also be sure to come to Brooklyn to see you.

Sincerely,

Richard N. Murray
Director
