Mr. John W. Rhoden  
285 Eighth Avenue  
New York 1, N.Y.

Dear John:

There has been a delay in the sculpture meetings to review the sculpture problem for which you have supplied us material. We have enjoyed having the "Rhoden Lion" here and unless you wish it returned we would like to keep it a while longer.

I am sending along a copy of the Spring 1959 issue of ARCHAEOLOGY magazine because of the article on page 47 regarding the lost wax process which you tried to describe to me one day in your studio. There was also an article in the December 28, 1959 issue of TIME which I am enclosing. Neither one of these explains how one can do this without a mold, which I understood you to say was possible. Perhaps some day I will comprehend.

Sincerely yours,

Walker O. Cain
