

April 3, 1944.

Dear Richenda,

I just find out from the War Dept that the exact date of Lawrence's missing was Nov. 26, as you were notified. He was missing in European Area instead of North African Area. I believe that you have all the ~~no~~ latest news from the letter of March 27.

I also saw the clipping which you enclosed in your letter & I doubt very much whether Lawrence was on board of that same transport. I am sorry that I still unable to find out when that big transport (announced by War Dept on Feb. 17) was sunk. It is considered very secret. Neither I can obtain ^{any} information whether he was on that transport. I try my best to find out some more information - for you in the future I shall let you know as soon as I can.

Please don't worry about the news, we are still holding the greatest hope that Lawrence will come back safely. Best regards. Sincerely yours
Bridal.

I still can not get in touch with the person in the War Dept. I would look at Lawrence's former record.
