Tuesday: - Jan. 27 -

- Visited Km. #6, Benguet for Fugao carriers

Took Pictures -

Carriers come from Fugao Tribes in the interior of  
mountain Province. Carriers are trained on father  
to son system and mother to daughter system

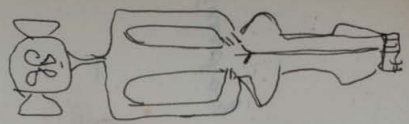

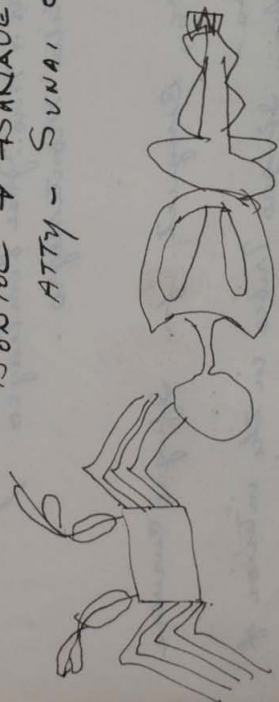

Curing tools are fashioned from files and other hard steel which they shape to their own convenience and use. Curvers start very early in life and work from dawn to sunset every day. This particular village is composed of about 20 main curvers and their families. They help each other in one way or the other. They curve as they see subjects (by instinct) w/o any models but all.
