Dear Mr. Roden:

We are most appreciative of your presence at and participation in our Annual Forum on March 10. It was obvious that those present were interested in the material which you had for distribution, and I am only sorry that not more people took advantage of the opportunity offered to them.

It is a pleasant experience for us to have the chance to share our "public" with other organizations which are essentially laboring in the same vineyard.

Thank you.

Sincerely yours,

Robert M. Webb, Director
Division on Group Work
and Youth Services
