

JOHN W. RHODEN
SCULPTOR

The sculptures of JOHN W. RHODEN
were inspired by the science of ASTRONOMY.

QUASARS AND PULSARS, made of Bronze,
Jewel Glass, Steel, Copper and Silver were both
cast and welded.

They were inspired by the discovery
of these units (QUASARS AND PULSARS) of the
expanding cosmos, and the ability of scientists
to investigate functions, millenniums and the
creation of galaxy.
