Mr. John W. Rhoden  
269 Eighth Avenue  
New York 1, New York

Dear John:

Please talk to Mr. Olivier de Messieres, in the office of Ketobum and Sharp, Architects, 227 East 44th Street, New York 17, New York, as to the size of the sculpture exhibit which will be allowed in the exhibition starting October 2nd. We would suggest that you make a detail of one of the more interesting panels, full size, something perhaps 30" high.

This will be the only three dimensional element in our exhibit, the rest will be two panels of the colored photographs. I would appreciate it very much if you would get after this at once, because we believe it will add a great deal to the quality of our show.

We are sending a copy of the letter of invitation. I notice that they did not send a copy of the letter to you, but you will notice that your name is mentioned therein.

Sincerely yours,

RC:prf
