

I am pleased to recommend John Rhoden for a Fellowship grant in the Louis Tiffany Comfort Foundation. He is one of my most talent, advanced and serious student. His performance in the study of sculpture for the past four years has been consistently fine and on a professional level. His talent is native and strong and very promising.

He is a person of integrity and charm and very popular with his instructors and classmates.

I am certain that he will prove worthy of the opportunity and privilege offered by the Tiffany Foundation

C. M.
