Dear Mr. Rhoden,

The jury of selection for the Council on the Arts for Clinton County visual arts competition has had the exhilarating and demanding task of viewing slides of works entered by many New York state artists. We have been pleased with the large number of entries submitted and quite burdened with the difficult decisions we have had to make in viewing so many fine works. Indeed, we were deeply impressed with the number of fine sculptors that chose to enter this competition. The quality of work is most impressive.

It is with regret that I must inform you that your contribution was not included on the list of finalists. We do, however, deeply appreciate your entry into this exhibition and your interest in it. You have taken the time to be involved with us and we cordially thank you for your participation.

The slides submitted by you to Council on the Arts are returned herewith. Thank you so much for sharing your work with us.

Sincerely,

Voyhouse Perkins
