Page Two

II. Materials

Dichroic glass laminated to tempered plate glass; clear tempered plate glass, cold bent; stainless steel cables and hardware; fabricated aluminum structure with bead-blast polished surface.

III. Dimensions

44 ft. diameter x 16 ft. high

IV. Lighting

Twenty two quartz lamps located in floating sconce. Single power feed from above. Easily reached from step-ladder or lift from below for relamping.

V. Maintenance

No special maintenance required. Occasional dusting (semi-annual?) from a small lift.

VI. Safety

Lowest component is 10'3" above the floor. All glass to be tempered or tempered and laminated. Structure to be approved by consulting engineer.
